Abdulbasit Abdulghani

frontend developer – python developer

An experienced programmer with a knack for mastering various programming languages such as Python, C++, C#, JavaScript, PHP, and React. Over the years, I've built a solid reputation for delivering top-notch solutions on time and within budget. Possessing a high skill level in identifying and resolving programming issues.

EXPERIENCE

MechaPal   **Aug 2022 – Present**
Nlp – Python – React JS Developer   Remote
- I gained extensive experience in programming and developing various systems using pre-trained language models from Hugging Face with Python. I integrated these systems with other platforms, such as Rasa, contributing to their effective integration.
- I also developed innovative systems using the ChatGPT API and the Python language. These systems were integrated with React JS interfaces, giving them a modern and interactive look.
- In a separate project, I developed a solution using the ChatGPT API with Python and integrated it with the Bubble.io platform, providing scalability and interoperability with different systems.

MIDAD Training   **Jun 2022 – Oct 2023**
Frontend – Backend developer   Aleppo
- After delving into the fundamentals of web development for several months, focusing on Laravel and React.js frameworks, I successfully delivered an e-commerce project. This project was implemented using React for the frontend and Laravel for the backend.

Aleppo University   **Nov 2018 – Aug 2023**
Python Developer   Aleppo
- I developed a project focused on encryption and decryption using the Vigenère algorithm, incorporating a Tkinter interface and utilizing SQLite for data storage.
- Furthermore, I spearheaded the development of a self-driving car project leveraging image processing techniques with Raspberry Pi. The project included implementing a control interface using Flask for seamless remote management.

EDUCATION

Aleppo University   **2018–2023**
Bachelor's degree in Informatics Engineering   Aleppo

Full-stack diploma - MIDAD org   **2022–2023**
Certificate of passing training with a very good average   Aleppo
